Project results

Our EUROPEAN SUSTAINABILITY EXPERT (ESE) e-Learning Course is now available!

The SUSTAIN-EU consortium has launched the European Sustainability Expert (ESE) e-Learning Course, offering nine interactive competence units covering essential sustainability topics, from green business practices to ESG reporting. Available online, the course combines multimedia resources, practical activities, assessments and an AI-powered Tutor Bot to support flexible, independent learning!

Partner activities and meetings

Our Train-the-Trainer Programme piloted in Vienna

From 7 to 9 July 2026, SUSTAIN-EU partners gathered in Vienna, Austria, for a transnational Learning, Teaching and Training Activity (LTTA), hosted by BFI.
Participants experienced the six modules of the newly developed Continuous Professional Development (CPD) Programme through interactive workshops, practical exercises, peer learning and collaborative discussions.

The event provided valuable opportunities to test training materials, exchange feedback and prepare trainers for implementing the programme in their respective countries.

Next steps

The consortium will finalise the CPD training resources and prepare their national implementation. Partners will also continue promoting the ESE e-Learning Course and making its resources accessible to learners across Europe.
In our next newsletter you will find news on the progress of our project, and will see us in other project events and activities!

Follow our progress and discover how SUSTAIN-EU is empowering Europe's green transition!
